TITLE INDEX

A factor analysis of equity market relationships in Asia, 725
A market share model for vegetable and tropical oils, 95
A model of state-level prescription drug expenditures in the USA, 289
A modified human development index and international comparison, 677
A new method for investigating the relationship between strikes and absenteeism, 431
A non-parametric approach to identifying the sources of cost savings arising from competitive tendering, 463
A note on fractional cointegration, 683
A note on unemployment rates and the paper-bill spread, 49
A test of the modern version of the Solow model, 587
A turning-point diagnostics analysis on the accuracy of the OECD forecasts for Turkey, 625
About the stability of the inventory–sales ratio: an empirical study with US sectoral data, 467
Aggregate health care expenditure in the United States: evidence from cointegration tests: a comment, 37
An additive tax and subsidy for controlling automobile pollution, 459
An alternative estimation method for the OCE model, 501
An analysis of bid-ask spreads on American- and European-style index options, 445
An experimental investigation of direct subjective discount rates, 59
An investigation of cointegration and causality between fertility and female labour force participation, 29
Annualized versus non-annualized lifetime income redistribution, 533
Another note on Oswald's ''The Economic Theory of Trade Unions'', 719
Are the Greek budget deficits too large?, 487
Assortative mating and ethnicity in the low wage population: an examination of spouses' earnings, 311
Attendance demand: an investigation of repeat fixtures, 391
Australian government sector initial public offerings, 603

Bank credit in the ERM: an investigation of the role of Germany, 325
Betting volume and market efficiency in Hong Kong race track betting, 781
Black market trade: an example from a rural hospital in Kenya, 213

Call-put signal predicts Finnish stock returns, 645
Can an increase in national saving reduce the level of unemployment in Australia?, 329
Can factor proportions explain vertical intra-industry trade?, 307
Canadian-Japanese R&D spillovers and productivity growth, 763
Causality between advertising and sales: new evidence for cointegration, 299
Changes in the duration of economic expansions and contractions in the United States, 801
Charts as signals in Markov switching world, 405
Child labour in American reports, 573
Claims' estimation in multiproduct life insurance firms: preliminary United Kingdom results, 715
Common trends and common cycles under alternative exchange rate regimes, 423
Comparative stability analysis of demand-side and supply-side input-output models: the case of Japan, 1960–90, 349
Conceptualizing suicide in economic models, 139
Consumer attitudes toward trade liberalisation, 179
Consumer demand for poultry at home and away from home: a discrete choice analysis, 669
Consumer expenditure in South Africa: a time-series model, 385
Consumption growth and the intertemporal elasticity of substitution: some evidence from income quintile groups in Japan, 529
Continuous degrees of residual claimancy: some contractual evidence, 739
Convergence to steady state growth: a model for Japan, 259
Corporate growth and the equity-debt choice, 1
Cyclical unemployment: sectoral shifts or aggregate disturbances? A vector autoregression approach, 127

Decomposition of Gini coefficients by class: a new approach, 115
Deficits, inflation and central banks' independence: evidence from developing nations, 505
Derived demands for 'General Cargo' shipping in Spain, 1975–1992, an economic approach, 175
Disaggregate inventory–sales ratios over time: the case of US companies and corporations, 1976–92, 167
Dividends with no taxes, evidence from Hong Kong, 345
Do fiscal variables affect private consumption? Evidence from Australia and the United States, 375
Do prices move counter-cyclically?, 379
Does Europe have an integrated capital market? Evidence from real interest parity tests, 517
Does simultaneity exaggerate empirical tests of the trade-growth relationship?, 225
Does welfare cause increases in female-headed households?, 85
Duration of first marriage: does pre-marital cohabitation matter?, 217

Economic freedom, per capita income and economic growth, 595

Economic growth and monetary union in sub-saharan Africa: new evidence on the effects of CFA-zone membership, 769
Effectiveness of simple technical trading rules in the Hong Kong futures markets, 33
Estimating the cost of capital of the UK's newly privatised utilities, 653
Estimating the degree of dominance in a bilateral oligopoly, 209
Export-import endogeneity in the context of the Thirlwall-Hussain model: an application of the Durbin-Wu-Hausman test incorporating a Monte Carlo experiment, 275
Export-led growth and the US economy: another look, 341
Exports and economic growth: evidence from cross-country analysis, 369
Extended critical values for a simple test of cointegration, 155

Financial deepening and economic growth in developing countries, 243
Finite sample behaviour of GNR tests for serial correlation, 55
Foreign trade and economic growth evidence from Sri Lanka, 1960–1992, 567
Functional form in regression models of Okun's law, 607

Global macroeconomic shocks, time-varying covariances and tests of the international CAPM, 109
Government finance and endogenous growth, 787

Hedonic prices for environmental and safety characteristics and the Akerlof effect in the French car market, 435
Hospital costs in Catalonia: a stochastic frontier analysis, 471
How close to the offensive potential do national football league teams play?, 743
How small firms forecast short-term employment: some survey evidence, 521

IGARCH effect on autoregressive lag length selection and causality tests, 317
Impact of cholesterol information on US egg consumption: evidence from consumer survey data, 189
Impacts of government policies, economic conditions and past migration on net migration in the USA: 1992–93, 441
Industry concentration-profitability and competition policy: is there a critical concentration level?, 611
Inflation in developing countries, 807
Information noise and stock return volatility: evidence from Germany, 537
Instability in trade flows as a cause of economic stagnation in Africa: an error-correction test, 359
Is equality really growth-promoting?, 159
Is Spanish consumer behaviour consistent with the utility maximization? A nonparametric response, 237
Is the Fisher effect robust? Further evidence, 41

Kaldor's technical progress function: a comment, 729

Labour mobility in Australian industry, 577
Learning to rent-seek: collective action and in-kind benefits in the public sector, 755
Logit regressions with continuous dependent variables measured with error, 183
Long-term stochastic dependence in financial prices: evidence from the German stock market, 701

Married female labour force participation: an analysis of probit model with a natural non-participation rate, 205
Maximum likelihood estimation of market share models with large numbers of shares, 45
Mergers and acquisitions in the UK: a disaggregated analysis, 637
Merger and the returns to labour and investment, 145
Merger failure and merger profitability: an alternative to the Hviid and Prendergast model, 271
Mergers and market power in the US steel industry, 221
Mexico's futile attempt to defy purchasing power parity, 395
Misspecification and cross-country growth regressions, 413
Money, output, price and causality in mainland China, 101
Motivations that underlie subscription prices in common stocks right offerings: public utilities, 201
Multi-product cost functions and the funding of tuition in UK universities, 557

Non-linearities in the return to education: sheepskin effects or threshold levels of human capital, 171
Nonconvex cost and the behaviour of inventories: some disaggregate results, 687

On improvements of Phillips-Perron unit root tests using optimal bandwidth estimates, 197
On the characteristics of tariff rates: permanent or temporary shocks?, 401
On the determinants of households' consumption inequality: an empirical analysis for Japanese workers' households, 541
On the effects of money on the terms of trade: an empirical investigation, 721
On the high correlation between unemployment and the dispersion of industrial unemployment, 285
On the identification of the Barten-Gorman model: an example within the AIDS framework, 615
On the relationship between money and inflation in the United States: additional evidence, 549
On the single and multiple time trends representation of technical change, 495
Overeducation and the formal education/experience and training trade-off, 511

Ownership and efficiency differentials in Chinese industry: further evidence from data envelopment analysis, 475

Performance of structural change indices: analysis using real and simulated data, 187
Persistence of economic growth and its determinants: some evidence for South Korea and India, 53
Public expenditure and private investment: a study of the UK and the USA, 641
Purchasing power parities and consumer theory, 5

Religion, culture, economic and sociological correlates of suicide rates: a cross-national analysis, 777
Resale price maintenance and antitrust policy, 107
Ricardian equivalence, budget deficits, and saving in the United States, 1955:1–1991:4, 525

Seasonal unit root characteristics of disaggregated output, 749
Share price movements: a study of four OECD countries, 135
Some problems with modelling asset returns using the elliptical class, 571
Some questions concerning dynamic almost ideal demand systems, 693
Sources of fluctuations in Australian imports, 563
Sources of fluctuations in exchange rates: a structural VAR analysis, 251
Sources of structural change: an input-output decomposition analysis for Greece, 707
Speed of adjustment and estimation of the partial adjustment model, 21
Spot price volatility, information and futures trading: evidence from a thinly traded market, 63
State economic growth and international export orientation, 131
Stock price and expected dividends: evidence from Singapore, 81
Strikes and profits: considering an asymmetric information model, 545
Suicide and business cycles: Finnish evidence, 737
Surprises in the consumption function: a comparative study, 73
Systematic measures of dynamic Farrell efficiency, 91

Teacher-associated expenditures and student achievement, 591
Technical efficiency of the Ugandan Matoke farms, 491
Testing the efficient market hypothesis using panel data, with application to the Athens stock market, 121
Testing for a unit root in a time series with mean shifts, 629
Testing for deterministic nonlinear dependence in the Australian Dollar–US Dollar exchange rate series, 267
Testing the (S,s) model of inventory investment with Canadian wholesale trade data, 193
Testing the intertemporal model of the current account: some evidence from Greece, 759
The adjustment of nominal interest rates in Mexico: a study of the Fisher effect, 255
The allocative efficiency of the formal versus the informal financial sector, 163
The applicability of industrial organisation theory to the services sector: initial tests from the UK hotel industry, 733
The dancing of the real exchange rate of US dollars and the US real trade balance, 805
The degree of capital mobility in Thailand; some estimates using a cointegration approach, 9
The determinants of Greek manufacturing investment: a comment, 89
The determinants of student loan take-up in the United Kingdom: another gaze, 25
The determinants of technological protectionism, 281
The distribution of future prices: diffusion-jump versus generalized beta-2, 303
The dynamics of OECD forecasts for Greece, 427
The effect of charter status on savings and loan resolution costs, 293
The effects of a North American free trade agreement on the US glassware market, 451
The effects of welfare guarantee levels and tax rates on male labour supply, 417
The Fisher effect and the gold standard: evidence from the United States, 553
The form of the production function for the Chinese regional economy, 355
The gloomy mists of the 1960s: pricing of investment trust shares without data on net asset value, 659
The human capital augmented Solow model revisited, 711
The impact of exchange rate adjustment on output: Jamaica 1960–90, 409
The impact of political shocks on cointegrated exchange rate series, 15
The irrelevance of adjustment costs for investment determination, 125
The new Keynesian economics and the ouptput-inflation trade-off, 599
The risk premium of the Australian dollar in the 30-day forward market, 233
The role of divorce in the consumption function: an EC study, 791
The role of reputation capital in the investment banking industry, 455
The slowdown in US economic growth: a comment, 185
The spatial correlation of the per capita income of Florida's counties, 1970–1990, 71
The weak-form efficiency of the Taiwan share market, 663

The weekend effect, good news, bad news and the Financial Times Industrial Ordinary Shares Index: 1935–1994, 795
Time series analysis of settlement prices for individual currency futures in Singapore, 673
Time series evidence on the saving-investment relationship, 77
Transfer pricing by the Canadian oil industry: a company analysis, 333

Unanticipated income and consumption in ASEAN countries, 247
Unemployment as a constraint on labour supply and goods demand in Spain, 149
US budget deficits, inflation and exchange rate: a cointegration approach, 365
Used car markets: reliability does matter, but do Consumer Reports?, 67
Using panel data to estimate Engel functions: food consumption in China, 621

Velocity and interest rate variability in Italy: a further test of the Friedman Hypothesis, 773
Velocity and the variability of anticipated and unanticipated money growth in Malaysia, 697
Velocity instability in the USA: a monetary or real phenomenon?, 581

Wage discrimination: a statistical test, 649
What opportunity cost of holding real balances? The case of Greece 1978–1993, 483
